

# Candidate Management

Easily register and manage your candidate information

The Candidate Management module of our Election Management Platform simplifies the process of registering and managing all the information concerning political parties and candidate postulations.

User-Centered  
Designed

Efficient

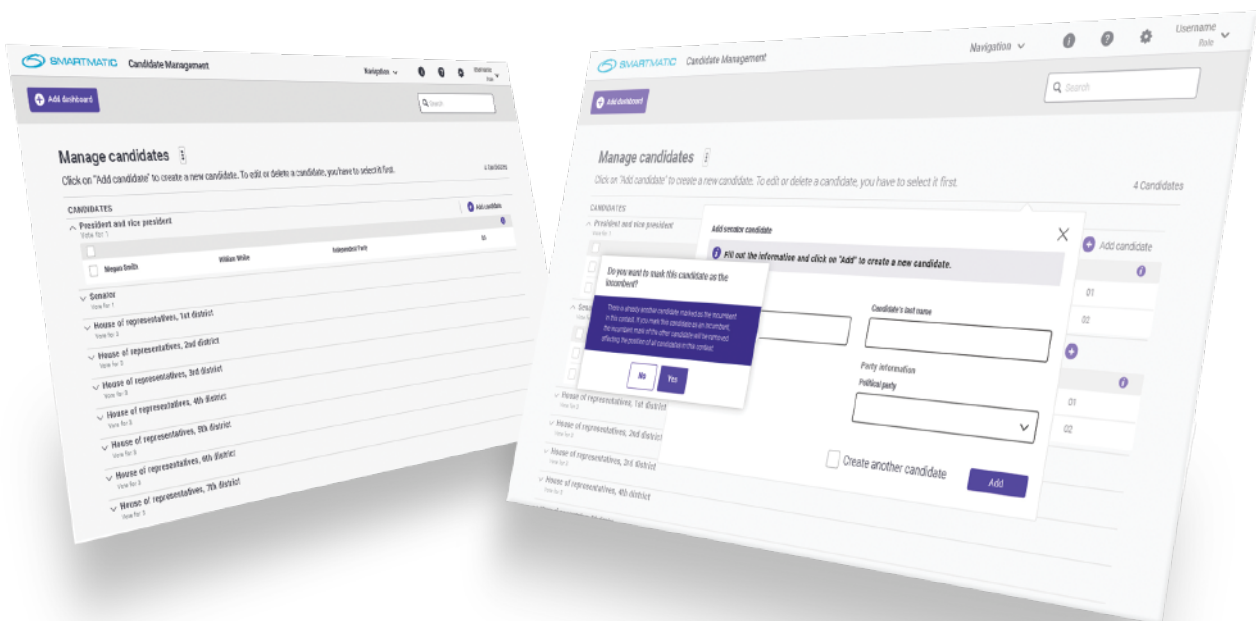

Accurate

# How does it work

The Candidate Management module accurately consolidates information for a nomination, including candidates, parties, supporters and other required items;

- Automatic validity checks are performed based on a set of configured rules and parameters;
- The system displays meaningful reports to guide the user, and to provide updates on the status of the process;
- Our Candidate Management module allows for multi-jurisdiction management, in which different levels of geopolitical distribution can independently manage their area of responsibility.

**Simplify the process of registering and managing all the information concerning political parties and candidate postulations.**
