

## ALL-INCLUSIVE TOUCHSCREEN VOTING SOLUTION

# Premium Voting Machine

## Enhancing the Election Experience

This version of our Premium Voting Machine features as a secure ballot marking device and tabulator.

The machine offers the highest levels of security while guaranteeing a highly usable and independent voting experience.

### Highly Usable & Fully Accessible

- Intuitive interface
- Embedded instructions
- Fully accessible

### Optimized for All

- Simplified voting process
- Convenience
- Deployment efficiency

### Independently Assessed Security

- Vote integrity guaranteed
- Tamper evident seals & sensors
- Extensive audit mechanisms

### Highly Usable & Fully Accessible

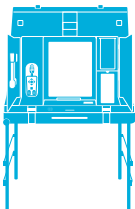

The embedded software instructions, the clean hardware interface, visual voting cues, and contextual help provide everyone with a highly usable voting experience.

Voters with disabilities benefit from the accessibility platform and can vote, verify and cast their vote autonomously.

The Premium Voting Machine provides a WVPAT behind the glass of the Cut&Drop printer allowing any voter to verify their vote independently.

### Optimized for All

With Smartmatic's Premium Voting Machine, voting processes are simplified, even when the ballot is complex, allowing voters a convenient voting experience.

Poll workers' responsibilities are eased by the machine's set up simplicity and guided instructions, minimizing the need for training.

## Independently Assessed Security

The Premium Voting Machine has been reviewed by independent security specialists. Integrity of the vote is guaranteed by the combination of:

- multiple layers of security controls;
- tamper evident seals and sensors;
- the option of a VVPAT;
- and a unique end-to-end auditability layer.

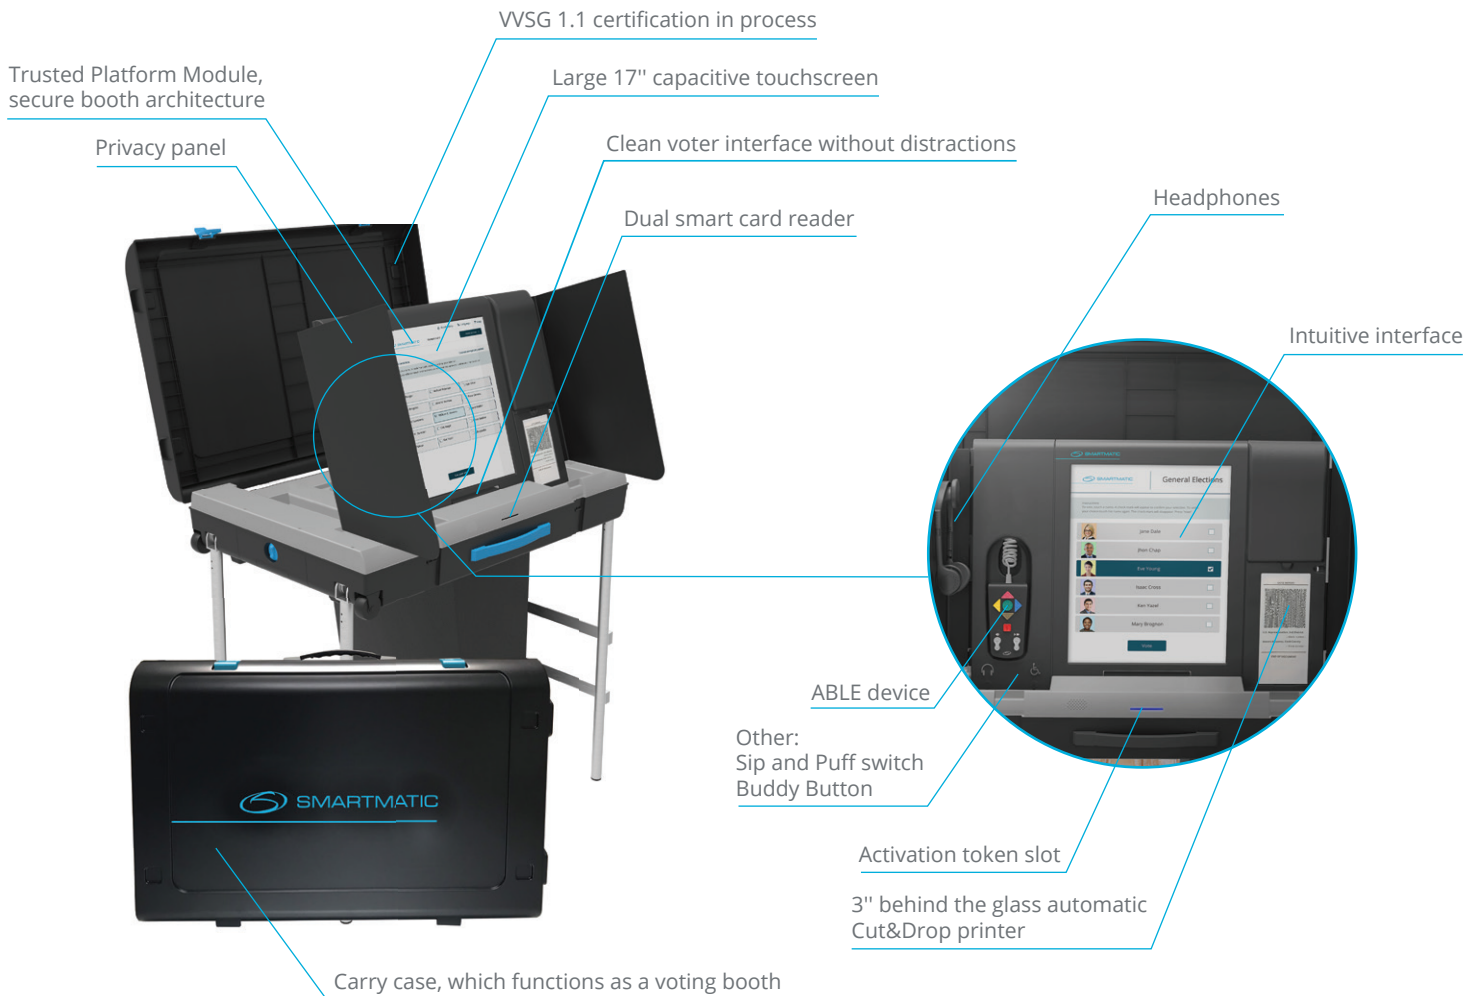

## Customizable

Every jurisdiction has unique needs, therefore supported messages and languages, behavior parameters and validations, ballot handling, and voting experience timeouts are completely customizable.

The machine can also include a bar code reader to scan the QR code of a pre-marked ballot for faster voting processes at polling places.

## Key Features of the Premium Voting Machine

Our clients benefit from our complete portfolio of solutions to make election administration more efficient and transparent. We lead the electronic voting industry with our solutions, geographical presence and technological advancements.
