

Election Management Platform

Centralized election management for successful elections

Understanding the complexity of elections, Smartmatic supports election commissions with an intelligent web-based platform, making the task of managing elections easier, and more efficient.

Significant Time Savings

Efficiently create elections and manage preparation milestones and all data in one centralized platform.

Improved Decision Making

Facilitate decision-making by having complete and accurate information in a single place.

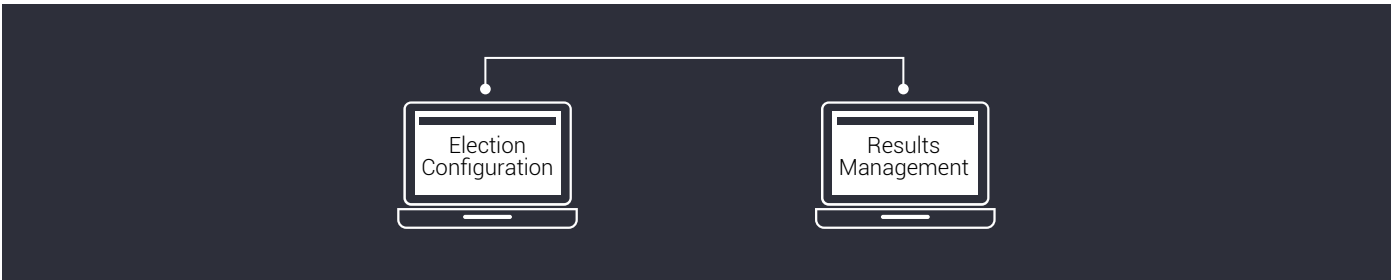

Highly Usable

The WCAG compliant and workflow-oriented interface, minimizes errors, and the need for training.

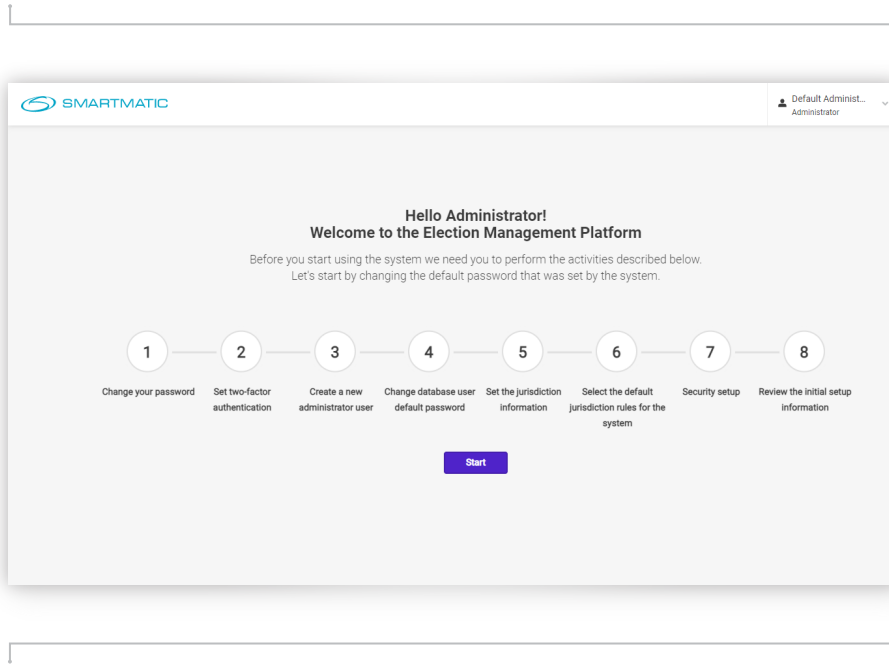

Election Management Platform

Election Configuration

As the core of the EMP, Election Configuration assists EMB's with efficiently designing, planning and managing those millions of details involved in an election.

Results Management

This module closes the gap between the reception of the results, the monitoring of the process, and tabulation of the results. Process quality and speed are guaranteed.

Whether your election is manual or automated, Smartmatic's EMP makes managing elections easier and more efficient.
