

US Election Services

Election Services

From Front-end Support Through Operational Excellence

Smartmatic brings experience from election events in more than 30 countries to bear for you. We deliver a unique combination of project management, people, process, and knowledge-transfer expertise to help your organization build its capabilities to ensure your elections are secure, scalable, sustainable and healthy.

Smartmatic offers custom services throughout the election lifecycle: with solid planning and project management reinforced by superb operational execution.

Our expertise includes deep experience in logistics, implementation, backend infrastructure and on-site support. We assist you with election data services, Help Desk, staffing and recruitment, staff training, polling place site mapping and equipment distribution. We also offer customized development, manufacturing, testing, certification and systems integration.

Furthermore, we offer a portfolio of products and services to mitigate the spread of Coronavirus before, during and after Election Day.

The Smartmatic Advantage

Smartmatic's size, global experience and dedication to our customers give us significant advantages over less-experienced providers and vendors with limited resources:

- We can assure that your project is staffed by a skilled team of professionals, each with specialized knowledge in their respective area of expertise: Project Management, Help Desk, Technology Deployment, Hardware and Consumables, Compliance.
- We can design, configure and operate the IT systems you need, from data centers to cloud services and WAN and LAN networks, to successfully execute your election.
- We maintain infrastructure, such as a software-based Help Desk PBX, that's ready for you now, and it's scalable to fit your needs exactly and match unforeseen surges.
- We can recruit and train local personnel for every role in your election event, no matter the size or location, from warehouse workers to roving technicians to poll workers.
- We can help you run safe, healthy elections with science-based guidance on hygiene and PPE for poll workers and voters.
